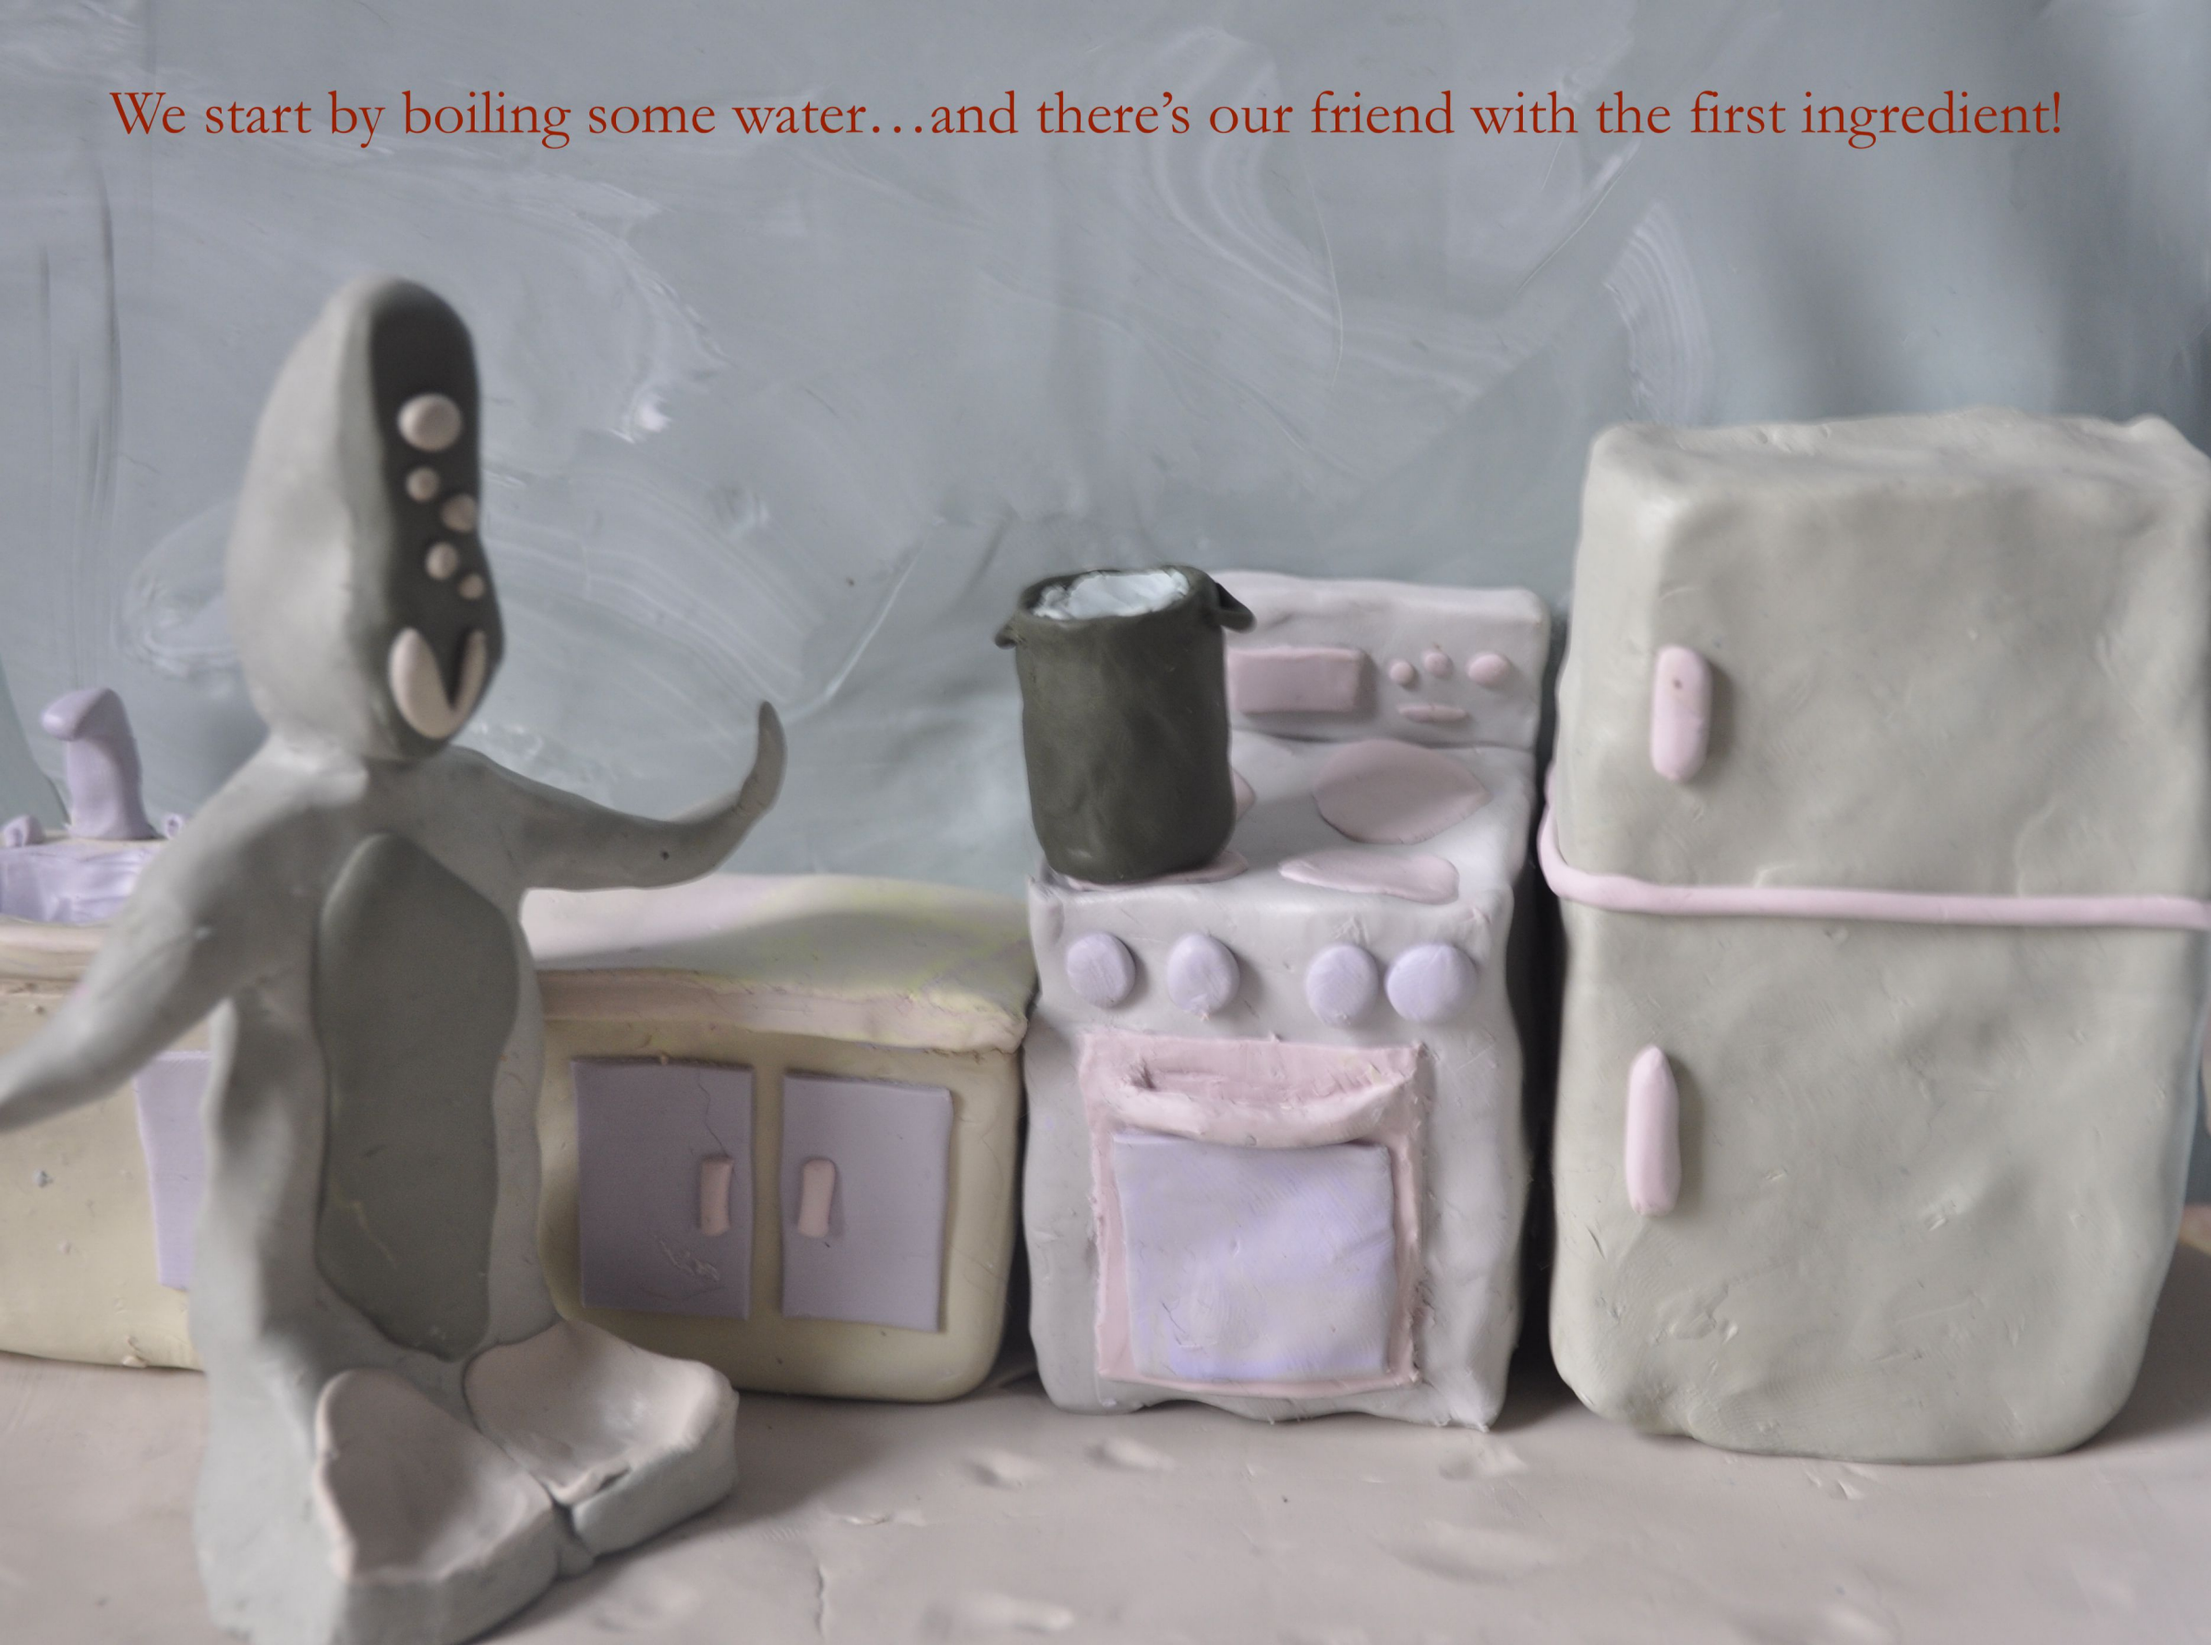
PLASTIC SOUP

by JEJ

on another

planet....

Today, we are making Plastic Soup.



We start by boiling some water…and there's our friend with the first ingredient!

Hello friends!
I have brought a plastic straw.
Sometimes straws suck.
Sometimes they make Plastic Soup!

This is from the Great Nike Shoe Spill.
Humans wear them on their feet,
then throw them away.
Sometimes they get lost at sea…
sometimes they make Plastic Soup!

And the rubber ducky comes last, of course.

Oh, how we love PLASTIC SOUP!
